EURA

Waiting Seat

PERFECT FOR ANY SITUATION

Eura stands out with a proud outline that makes it the perfect choice whenever a seat with character is required. The Elite version is enhanced with comfortable padding and elegant seams that add a particular elegance and make it ideal for executive offices or as a guest chair.

SPECIFICATIONS

The seat is made of 10 mm (approx. 0.4") natural beech plywood, padded and upholstered. The back is made of 10 mm (approx. 0.4") natural beech plywood, varnished with aniline or padded and upholstered, with back supports in nylon reinforced with 20 percent glass fiber with chromed metallized finishing. The plastic back is made of injection-molded polypropylene, with a slip-proof finish. It is available in black or translucent white. The mesh backrest is made of a painted steel rod frame, with a diameter of 12 mm (approx. 0.48"), covered with a mesh of black, white, or gray polyester; the back supports are made of nylon reinforced with 20 percent glass fiber, with chromed metallized finishing. The padding is made of contoured polyurethane foam: the seat thickness is approx. 2.2" for the Elite version and 1.8" for the Slim version. The density is of 2.5 pcf for both versions. The upholstered back has a thickness of approx. 1.2" and a density of 2.5 pcf. The structure is made of 12 ga. tubular steel frame with diameter of 25 mm (approx. 1"), varnished or chrome-plated. A black or nickel-plated galvanizing process protects all the small components.
