## Multipurpose

### Materials

- Seat and backrest in scratch resistant polypropylene in various colors (some self-extinguishing colors available).—
- Seat and backrest in scratch resistant polypropylene with panel padded with self-extinguishing shape-retaining flexible polyurethane.
- Seat and backrest in varnished natural beech plywood (also self-extinguishing), available on design in various stains and finishes.
- Backrest formed with black nylon frame covered with polyester mesh.

### Zero9 Contract

- Seat supports and backrest in steel plate, supporting cross-member in rectangular steel section, folding legs in steel plate with nylon feet, or fixed leg. **(4-5)**

### Zero9 Contract

- Fixed armrests in steel with top in polypropylene.
- Anti-panic removable writing tablet in HPL. **(2)**
- Seating side table surfaced in natural beech plywood or white with scratch resistant finish and edging in ABS with satin-aluminium finish.

For all models, the metal frames are coated grey or white as standard. The details and armrests in polypropylene are grey or white as standard. **(1)**
