ABOUT NAVETTA

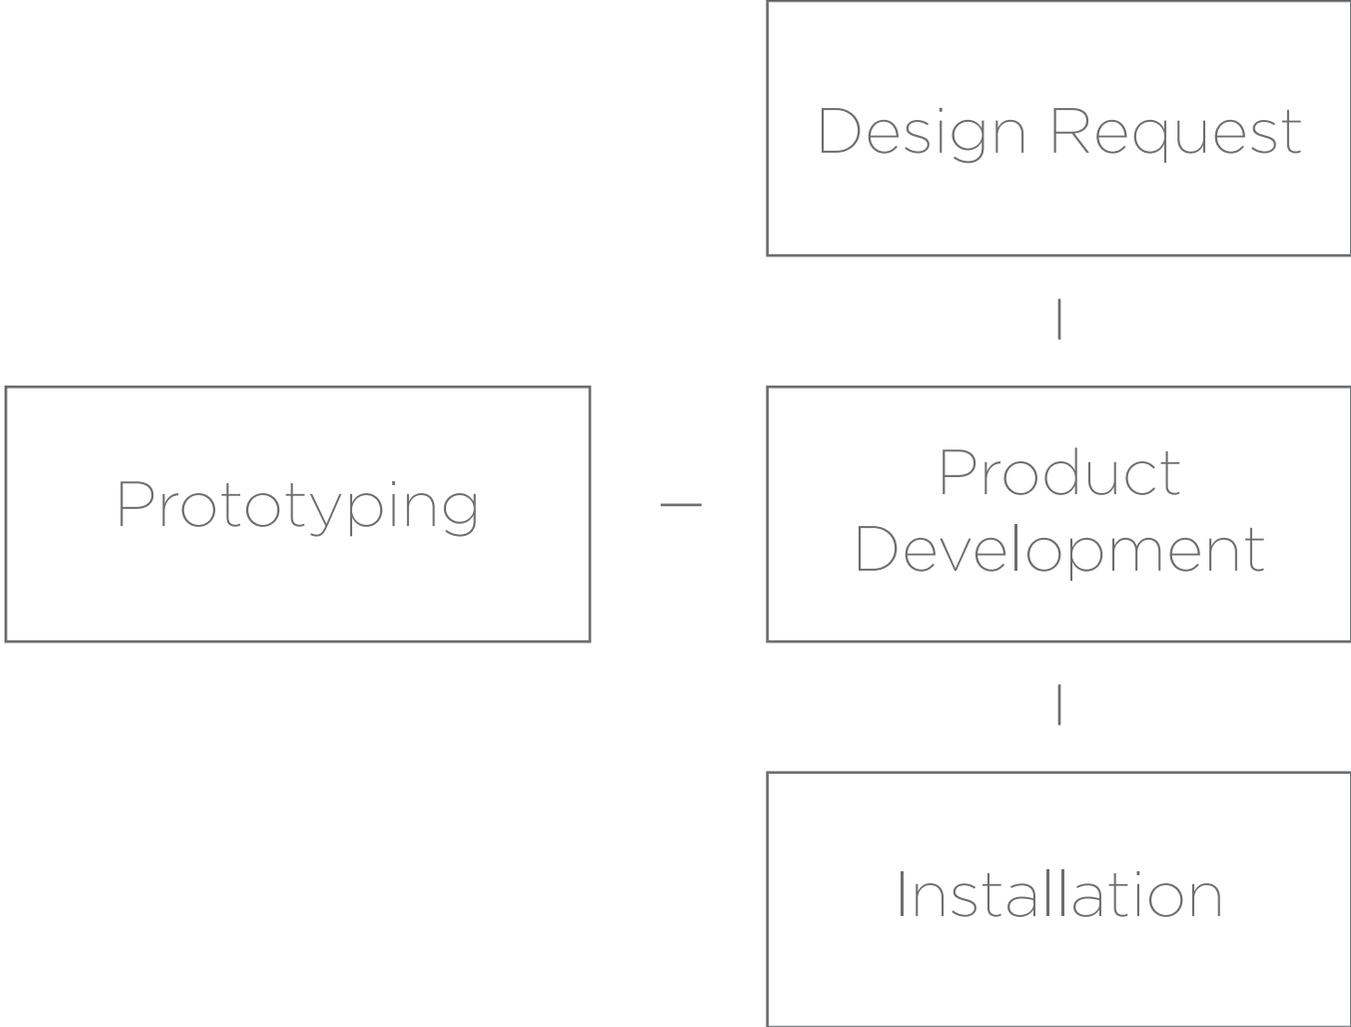

Navetta's history spans over 40 years, having been built from our long tradition of developing innovative and ergonomic educational furniture. The Synsor Corporation's educational furniture division ShuttleSystem separated and became simply, Shuttle the name was inspired by our revolutionary patented mobile, reconfigurable furniture system developed for high schools and community colleges. While Shuttle Furniture continues to serve the K-12 marketplace, our newest division Navetta offers innovative fixed lecture hall and auditorium seating, ergonomic chairs, and other furniture products for higher education.

DESIGN BUILD

At Navetta we are uniquely positioned to give you the space you want. From concept to installation we work with our clients to get the function and the form need to fulfill the design problem of the space. Navetta is well-qualified to handle custom requests because products are built-to-order. Our in house design team is used to upholding high standards under short deadlines, successfully executing custom designs from simple to elaborate.

DESIGN BUILD

KENT STATE

This installation is a great example of how Navetta can provide design build solutions to fit the needs and vision of the space.

Kent State Ashtabula's Main Hall featured our Symmetra Plus fixed

tables with our Avalon swing away seating. To fit the needs of the room we were able to provide a custom manufactured version of our Symmetra Ped chair with an anti-panic flip-down tablet. We also used our sister company Shuttle to provide mobile tables to match the rest of the furniture in the space.
